

-Groups-

We photograph groups, headshots for photo rosters, and memory books.

Let us help you to remember that special group.

We charge a flat fee to photograph your group, and then supply you with a Web site to order your prints from.

-Commercial-

Let us shoot the promotional photos for your widget or thingamabob. We also do real estate photography or photos for any other commercial application.

As long as it's not bigger than a breadbox (4' x 6'), we can photograph your item against our Chroma-key background and make your advertising agency very happy and save you money.

-Photo Restoration-

-Special needs-

We're in the photography business. If you have some special photographic need, let us know. We will work with you to get it done!

- weddings
- portraits
- groups
- commercial

We use the latest in digital technology to deliver the highest quality photographs possible.

With our Chroma-key background, you'll have endless possibilities for backgrounds including your own scenic pictures.

-Special events-

You create the memories—let us capture them! Our photographers are trained to get all the right moments without getting in the way.

- Dinners
- Corporate Functions
- Special Events

-Weddings-

We strive to be flexible on your special day.

We will meet with you prior to the big day to determine what kind of photographs you want, and when you want to take them.

We charge a flat rate to photograph your wedding. All of our photo packages are custom to suit your desires and your budget.

-Portraits-

We charge a flat sitting fee for portraits. You are free to choose your own print packages to fit your needs.

With our Chroma-key background, we are able to put virtually any background behind you, including your own scenic pictures.

We can also do location shots at your favorite outdoor space or in your own home or office. We even photograph pets (as long as they don't attempt to eat us!)
